

COMPANY

PROFILE

WHO WE ARE

MSG OILFIELD EQUIPMENT TRADING LLC is an Oil & Gas products supplier such as Pipes, Fittings, Flanges, Valves, Fasteners and Gaskets. We MSG combine experience in offering our services to several leading Oil Pipe & Process Industries.

If your clients demand renewed products, we suggest our clients to come to us regarding product quality, technical parameters, so we can provide them with the best solution.

Vision

To become the most trusted and respected partner in the field of the piping industry and serve our customers with the highest quality products.

Mission

To provide the highest quality products and solutions to the core industry we serve and excel in upgrading our skills to serve the needs of our clients.

Our USP

MSG team has acquired knowledge that in the long run always creates a good source for customer satisfaction. Our actions express beliefs that our clients are the responsible for our success and that we must exceed expectations in every way possible. We have developed a set of values that guide our actions and decisions.

Inspection

With our vast experience, we are well aware of the inspection requirements of our Clientele. We can arrange for Third party inspections on customer requests. Depending on our customers requirements we can outsource all kinds of relevant inspection.

Visual Inspection

Our experienced inspectors perform thorough visual examinations to identify surface defects, dimensional accuracy, and overall quality.

Dimensional Inspection

Our experienced inspectors perform thorough visual examinations to identify surface defects, dimensional accuracy, and overall quality.

Material Verification

Our experienced inspectors perform thorough visual examinations to identify surface defects, dimensional accuracy, and overall quality.

Third-Party Inspection

Our experienced inspectors perform thorough visual examinations to identify surface defects, dimensional accuracy, and overall quality.

Pre-Shipment Inspection

Before products are shipped, we conduct comprehensive inspections to ensure they meet all requirements and are properly packaged.

Documentation Review

We thoroughly review all documentation to ensure compliance with industry standards and customer specifications.

Our Products

MSG OILFIELD EQUIPMENT TRADING LLC SPECIALIZES IN THE SUPPLY OF HIGH-QUALITY PIPING MATERIALS, INCLUDING:

Pipes

Fittings

Flanges

Valves

Fasteners

Gaskets

WE ALSO SUPPLY:

Strainers

Plates

ADDITIONAL SERVICES:

Coating of pipes & Pipe fittings

Sourcing of refurbished Piping equipment, Tailored to project-specific needs

Flanges

MSG offers a wide range of high-quality flanges for the oil, gas, and petrochemical industries. With pressure ratings up to 20,000 psi and classes up to 2500, we also provide semi-finished and custom flanges to meet urgent needs. All products meet ANSI B16.5 and global standards.

The range is 1/2" to 96" 150# to 2500#, 3000psi to 10,000psi. Based on the standard wide range of thickness and Specifications.

Type : Weldneck, Socketweld, Blind, Threaded, Slipon

Standards : API, ASTM/ASME, ISO

Materials : Carbon Steel, Alloys, Stainless Steel, Duplex, Super Duplex, Inconel, Titanium, Monel, Hastelloy Grade: A105, A350 LF2, LF3, LF6, A182 F316, 304/304L, F316/316L, F11, F12, F22, F51, F53, F55, High Yield F42 to F70, Inconel 625/825

Special : Spectacle Blinds, Drip Ings, Long Weldnecks, Nozzles, Insuruon Flanges, An Swivel Flange, Orifice Flange, Nipofflanges

Pipes

MSG offers pipes from 1/2" to 96" in seamless, welded, ERW, HFW, SAW, DSAW, and LSAW types. Made from carbon steel, stainless steel, duplex, and alloys, all pipes meet API, ASTM/ASME, and BS/ISO standards. Coated options include epoxy, 3LPE, and galvanized. MSG ensures quality, speed, and dependable supply for industrial piping needs.

Range : 1/2" to 96"

Execution : Seamless & Welded Pipes, ERW, HFW, SAW, DSAW, LSAW

Standards : API, ASTM/ASME, BS/ISO

Materials : Carbon Steel, Alloys, Stainless Steel, Duplex, Inconel, Titanium, Monel, Hastelloy

Grade : API 5 L GR.B, A106 Gr B, APISL Gr X42, X52, X60, X65, X70, A333 Gr 6, A333 Gr 3, A671 Gr5, A335 P5, P9, P11, P22, P91, A312, Gr 316/316L, 304/304L, 321/321H, 347/347H, A790 UNS S31803, S32750 / S32760, 6Moly, 310, 317L, 3191I, 904L, Alloy 400, 625, 825, 70600, 70620

Specials : Finned Tubes, Head Exchangers, Tubes & Duplex Tubing Coating: Polythene, Epoxy, Galvanized, 3LPE Cement Lining Galvanized (ASTM153, ASTM123) Electro galvanizing.

Fittings

MSG supplies high-quality pipe fittings and services that meet the demanding standards of the oil, gas, and industrial sectors. Serving industries including petrochemical, offshore, power, and shipbuilding, we offer tailored solutions backed by deep expertise and competitive pricing. Our commitment to quality is reinforced by thorough testing, ensuring every product is safe, reliable, and standards-compliant.

- Range** : 1/2" to 96" Standard & Special Wall Thickness
- Type** : E Ibow, Tee, Reducer, Cap & Forged fittings
- Ends** : Buttweld, Socketweld, Plainends, Threaded
- Standard** : ANSI/ASME, MSS SP/ISO
- Materials** : Carbon Steel, Alloys, Stainless Steel, Duplex, Super Duplex, Titanium, Monel, Hastelloy
- Grade** : WPB, WPL6, A105, Lf2, WPHY 42/52/60/65/70, WP304/304L 316/316L, UNS S31803, S32205, 32750, S32760, Alloy 625/825, WP11, WP22, WP91, 321/321H, 347/347H,
- Special** : Barred & Barrel Flow Tees, Large Radius Bends, Sweep Bends, Stub Ends, Laterals

Strainers

MSG offers a reliable and diverse range of industrial strainers designed to protect equipment and enhance system performance across sectors such as Oil & Gas, Petrochemical, Onshore, Offshore, Power Generation, General Industries, and Shipbuilding.

Our strainers help remove debris and solid particles from pipelines, ensuring smooth flow and reducing wear on downstream components. With years of industry experience, MSG supplies both standard and custom-designed strainers, including Y-type, basket, and duplex types, tailored to meet specific application needs. All products undergo strict quality inspections, with additional testing carried out when necessary to ensure compliance with international standards and client specifications. This commitment to quality and performance has made MSG a trusted strainer supplier in Dubai and beyond. We maintain consistent stock levels to ensure timely delivery for urgent requirements. Our expert team is always available to provide technical support and assist with product selection.

Valves

MSG supplies a wide range of valves ($\frac{1}{2}$ " to 48", #150–2500 lbs) in Flanged, Threaded, Socketweld, and Buttweld types. We offer Ball, Gate, Globe, Check, and Butterfly valves in standard and special alloys, all compliant with API, BS, and ISO standards. Options include metal-seated, cryogenic, and actuated valves. Quality-tested and ready for fast delivery across industries.

- Range** : $\frac{1}{2}$ " to 48" – #150 lbs thru #2500 lbs Flanged, Threaded, Socketweld & Buttweld Connections
- Ball** : Floating & Trunnion Execution, Split Body, Top Entry, Side Entry, Fully Welded
- Standard** : BS5351, API 6D and API 6A Gate, Globe, Check : Forged & Castings
- Standards** : BS5352, BS1414, BS1873, BS1868, API 6D, API 602/600 and equivalent ISO standards
- Butterfly** : Regular & Offset design. Castiron & Caststeel Execution
- Standards** : BS5155, API609
- Construction** : Wafer Type, Semi-lug, Single & Double Flanged
- Materials & Grades** : A105N, WCB, WCC, LF2, LCB, LCC, F316L, F304L, F321, CF8, CF8C, CF8NM, F5, F9, F11, F51, F53, 625/825 Alloys
- Specials** : Metal Seated valves, Cryogenic Valves, Actuated Valves, Exotic Alloy Valves Coating : Polythene, Epoxy, Cement Lined
- Operation** : Lever, Gear, Hydraulic, Electric Movement, Motor Operated

Plates

MSG is a reputable plate supplier that offers high-quality materials for the oil and gas, construction and engineering industries. Sheets are typically classified with a thickness of 6mm and below, but some exceptions are determined based on their surface finish. Commonly No. 1. Surfaces are known as plates because of their primary use as structural elements. The stainless steel sheets as well as plates can be found in a range of uses in the industry of construction and chemical industries, as well as oil & gas and many other fields.

PLATE GRADES:

SS304/L

SS316/L

SS31803/2205

Ss32750

SS310S

SS253MA

SS904L

Special Items

In order to provide complete package to our clients, we at MSG strive and provide materials which are required by our esteemed customers.

Based on specific requirements, on case to case basis, we do provide materials as requested by our Clients. Requirements are not limited to below given items.

- Isolation Joints
- Corrosion Coupons & Injection Quills
- Nozzles and Special Forgings
- End Closures
- Pressure Vessels
- Pig Launcher & Receiver
- Cladding Works
- Dish Ends
- Test Rings/ Spectical Blinds/ Spade & Spacers
- Welding Consumables

Our Services

Fabrication & Coating

As we understand our customers requirements, we extend our services by outsourcing and providing the following material modifications:

- Galvanizing
- Machining from Higher Wall thicknesses to lower ones
- Epoxy Coating
- Cement Mortar Lining
- FBE Coating
- We can supply locally fabricated Spectacle Blinds, Spacer Rings, Insulation kits, Pipe Nipples etc.

Testing & Inspection

With our vast experience, we are well aware of the testing and inspection requirements of our Clientele. We can arrange for Third party inspections on customer requests. Depending on our customers requirements we can outsource all kinds of relevant testing such as:

- SSCC (Sulphide Stress Corrosion Cracking)
- HIC (Hydrogen Induced Cracking)
- Various Mechanical (Bend Test, Ultimate Tensile Test etc.), Chemical Analysis, Impact Test, Grain size.
- Various NDE (Non-destructive examinations) such as UT (Ultrasonic Testing Examination), Radiography, LPE (Liquid Penetrant Examination), MPE (Magnetic Particle Examination), PMI (Positive Material Identification) etc.

Certification

ISO 9001:2015

MSG (Material Equipment Trading LLC) is a certified and registered provider of oil and gas equipment, committed to delivering quality and reliability. Our certifications reflect strict adherence to global standards, ensuring our products and services consistently meet industry expectations.

We collaborate with internationally accredited testing labs and certified partners to maintain the highest levels of safety and performance. Our ISO 9001:2015 certification stands as proof of our dedication to quality, compliance, and customer satisfaction across all operations.
